• Make every building safe, efficient and connected.

# Structured Cabling Expertise

## Structured Cabling Expertise:

We specialize in structured cabling solutions. With extensive experience and certified professionals, we design, install, and maintain robust cabling infrastructures.

### Services Offered:

- . Design and consultation
- . Installation and deployment
- . Testing and certification
- . Maintenance and upgrades

### Quality Assurance:

Our commitment to quality, safety, and compliance ensures reliable networks that meet industry standards.

### Project Success:

View our portfolio showcasing successful cabling projects in various sectors.

# CCTV Solutions Expertise

We excel in CCTV solutions, offering cutting-edge technology and expertise in surveillance.

## Services Offered:

- . Customized CCTV system design
- . Installation and setup
- . Remote monitoring and maintenance
- . Integration with security systems

## Quality Assurance:

Our solutions prioritize clarity, reliability, and compliance with industry standards for unparalleled security.

## Project Success:

Explore our portfolio showcasing successful CCTV installations in diverse environments.

## Future-Ready:

We stay at the forefront of CCTV technology to meet evolving security needs.

# Gate Barrier System Expertise

We specialize in Gate Barrier Systems, providing secure and efficient access control solutions.

## Services Offered:

- . Customized gate barrier design and installation
- . Integration with access control systems
- . Maintenance and support services
- . Cutting-edge technology for seamless operations

## Quality Assurance:

Our systems prioritize security, reliability, and compliance with industry standards.

## Project Success:

Explore our portfolio showcasing successful Gate Barrier System installations across various industries.

## Future-Ready:

We stay ahead with innovative technology to meet evolving access control needs.

# SMATV & IPTV Solutions Expertise

We specialize in SMATV and IPTV solutions, offering advanced technology for seamless content distribution.

## **SMATV Services:**

- . Customized SMATV system design
- . Installation of master antenna systems
- . Content distribution for multi-dwelling units
- . High-quality TV reception

## **IPTV Services:**

- . Custom IPTV network design
- . Streaming and content delivery
- . Interactive and on-demand features
- . Integration with existing systems

## **Quality Assurance:**

Our solutions prioritize clarity, reliability, and compliance with industry standards for superior entertainment experiences.

## **Project Success:**

Explore our portfolio showcasing successful SMATV and IPTV installations in residential and commercial settings.

## **Future-Ready:**

We stay at the forefront of SMATV and IPTV technology to provide cutting-edge entertainment solutions.

# Intercom Solutions Expertise

We specialize in Intercom Solutions, offering advanced technology for seamless communication and security.

## Services Offered:

- . Customized intercom system design
- . Installation of video and audio intercoms
- . Access control integration
- . Maintenance and support services

## Quality Assurance:

Our solutions prioritize clear communication, reliability, and security compliance for peace of mind.

## Project Success:

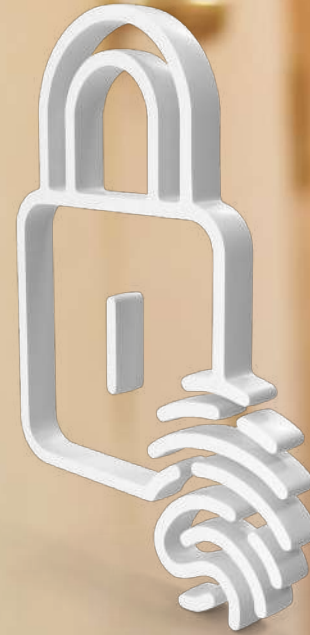

Explore our portfolio showcasing successful Intercom Solution installations in various sectors.

## Future-Ready:

We stay ahead with innovative technology to meet evolving communication and security needs

# Access Control System Expertise

We specialize in Access Control Systems, providing advanced solutions for security and convenience.

#### Services Offered:

- . Customized access control system design
- . Installation of keyless entry systems
- . Integration with security systems
- . Ongoing maintenance and support

#### Quality Assurance:

Our solutions prioritize security, ease of use, and compliance with industry standards for enhanced access management.

#### Project Success:

Explore our portfolio showcasing successful Access Control System installations across various industries.

#### Future-Ready:

We continuously adopt cutting-edge technology to meet evolving access management needs

# BGM System

## Services Offered:

- . Custom BGM system design
- . Installation of audio distribution systems
- . Integration with control and playback devices
- . Maintenance and support services

## Quality Assurance:

Our solutions prioritize high-quality sound, reliability, and compliance with industry standards for a captivating auditory environment.

## Project Success:

Explore our portfolio showcasing successful BGM System installations in various settings.

## Future-Ready:

We stay at the forefront of BGM technology to provide cutting-edge audio solutions.

# WiFi System Expertise

We specialize in WiFi Systems, providing robust and reliable wireless connectivity solutions.

## Services Offered:

- . Custom WiFi network design
- . Installation and configuration of access points
- . Network security and optimization
- . Ongoing monitoring and support

## Quality Assurance:

Our solutions prioritize fast, secure, and seamless wireless connectivity, ensuring client satisfaction.

## Project Success:

Explore our portfolio showcasing successful WiFi System implementations in various environments.

## Future-Ready:

We stay at the forefront of WiFi technology to provide cutting-edge solutions for modern connectivity needs.

# IT Consultancy Services

We provide a full range of project management, consulting, and implementation services, including:

- . Technical Support
- . Custom-tailored IT Consulting Services
- . Strategic IT development
- . Network and Internet Security
- . System Integration
- . Complete project management for your IT infrastructure
- . Technical Instruction and Documentation

## Office IT Setup & Relocation

Our office relocation IT setup services ensure a seamless transition with a robust infrastructure tailored to your business needs. We provide IT consultancy, fully managed IT services, network security, structured cabling, IP telephone systems, and end-user support, ensuring secure, scalable, and efficient operations. At FTTH Dubai, we deliver excellence in every aspect, enabling your business to thrive without disruption.

# Managed User Support

Our IT annual maintenance contract in Dubai is structured to address a wide range of issues efficiently. We prioritize critical server failures, system malfunctions, and hardware or software issues that impact business operations.

Whether it's paper jams, aging monitors, or software updates, our team is ready to resolve problems swiftly. Collaborate with us for best-in-class IT support that keeps your business free of technical difficulties.

## IT Support

FTTH Dubai understands the importance of having a reliable and flexible IT infrastructure. We provide a range of services tailored to meet your specific needs. From expert hardware installation to firewall configuration, our team ensures that your systems run efficiently and securely.

We also offer Annual Maintenance Contracts (AMCs) to keep your IT infrastructure performing at its best over time. With server integration services, we help businesses manage and store their data effectively, enhancing system reliability and performance.

# IT Support Contracts

Our IT support contracts are tailored to align with your business goals and IT requirements, covering systems, workstations, printers, network devices, and servers. From basic support to advanced maintenance agreements, we offer practical solutions designed to address your technical challenges.

As part of our IT AMC Dubai service, we provide proactive management of your IT infrastructure through regular monitoring and maintenance, ensuring seamless performance. Additionally, our helpdesk support offers preemptive training and administration assistance, keeping your organization running smoothly.

## Firewall Installation

FTTH Dubai provides seamless firewall installation, configuration, and ongoing support to ensure your network's security. Our certified engineers are highly skilled in managing and supporting firewalls from major brands such as Fortinet, SonicWall, Cisco, and Cyberoam.

We tailor our services to meet your business's unique needs, whether it's for immediate assistance or long-term support. Our goal is to provide your business with reliable, customized protection that enhances network safety and performance at all times.

# IT Outsourcing

By outsourcing your IT tasks to FTTH Dubai, you benefit from round-the-clock technical support and proactive problem-solving strategies. Our team works diligently to ensure your systems run smoothly, minimizing downtime and boosting productivity. Data security is also a top priority for us.

We implement cutting-edge measures to protect your sensitive information from cyber threats, ensuring the highest level of protection for your IT infrastructure. Our services are scalable and flexible, designed to adapt to your business's changing needs as it grows, while ensuring continuous monitoring, process optimization, and preventing system failures.

# SOFTWARE SOLUTIONS

**BEST BUSINESS SOFTWARE SOLUTION SERVICES PROVIDER**  
Whether you're a growing startup or an established public company, we're the right partner for your long-term success.

## OUR PRODUCTS

- ERP Software
